BIOGRAPHY

I am an experienced writer, author and editor, specialising in professional writing, proofreading and editing services.

I have worked on fiction, non-fiction, magazines, scripts and educational materials for children and adults.

Publishing specialists I've worked with include Harper Collins, Watkins, Dynamo Publishing, Sweet Cherry Publishing and GE Fabbri, creating titles for National Geographic Kids, Lucas Film and the BBC.

Services provided:

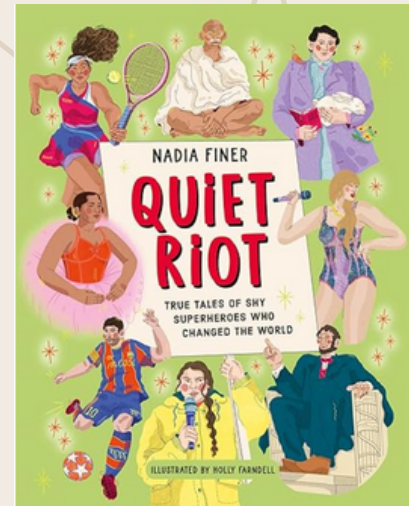

- **Creative Writing:** Writing adult & children's fiction, non-fiction and magazines. Adapting and improving existing texts.
- **Script Writing:** Film and television scripts.
- **Media Campaign Launches:** Developing successful media campaigns to promote your book or product.
- **Editing and proofreading:** Ensure your written materials are refined, relevant, and error-free.
- **Ghost Writing:** Transform your ideas into polished, professionally written content, making sure your voice and vision shine through.

If you have a project in mind or require assistance with any of my services, please do get in touch. I look forward to discussing how I can contribute to your project.

reimagining classic tales, and
researching and creating
educational non-fiction for
adults and children.

CHAPTER 4: Do Your Thing

The story made headlines two weeks later. Tim had to run through some details and get further information to build up the story. Tony had consulted with Drax after they unearthed all the evidence. Drax told Tony it was his duty as a member of the press to report on stories that show misinformation, abuse of power, and exploitation of status. In other words, Drax was just waiting for further evidence without doing any further dirty work.

Once the story was out, it set off a media storm and public outcry. The press and legal departments of the university, Jeff and Forde, the Wallace Foundation, and the legal team of the Wallace family called up National Newspaper threatening lawsuits. They were inundated by phone calls from the public who voiced their outrage at the story. There were those who had similar stories but about school admissions and job promotions.

Comprehension Questions

1. Drax and Tony wanted to know what Tim wrote for her admission because they wanted to test how bright she was.
A. True
B. False
2. How were Tony's and Courtney's lives different when it comes to applying for a spot at National University?
A. True
B. False
3. Tony wanted to go to National University because it was a family tradition that she had to fulfill.
A. True
B. False

EduLand

Secret quest: Sri Lanka uncovered
The Royal Caves of Dambulla

WRITTEN ON THE WALLS

Case update: A tip has come in that something has been spotted linked to the theft at Dambulla. A professor taking her students around the caves has noticed a change in the imagery inside the temple.

Entering the darkened cave, Blake was struck by the golden glow radiating from the numerous Buddha statues and detailed murals around him.

Phoenix followed, looking closer at the artwork and reading out the details that had been given in the report.

"The professor stated that there is an additional image that has been added to the mural in this temple. She has a photo from a previous trip and then the one she took this time."

Can you spot what has been added?

Being very careful to respect their surroundings, they made their observations confident that they had spotted the next clue. Blake took a final glance around. Peeking out from below a displaced rock he caught a glimpse of a small envelope.

Something about this seems familiar. Blake is sure that he has seen this symbol before. He takes a quick snapshot to check back on later. Any ideas?

Blake discovers a small wooden disk with an elephant carving on it. He thinks this could be useful, so adds it to his bag.

ROYAL SECRETS UNTOLD
Solve the clue
Tarew liwi averle

Is this the same elephant image spotted at Sigirya?

FACT: You'll never believe it... the caves hold over 150 statues of Buddha. The largest cave measures over 50 meters from east to west! That's the length of an Olympic swimming pool!

weird but true!

PECULIAR FACTS ABOUT

The plant *Pachypodium namaquanum* (aka elephant's trunk) is covered with spines and can reach up to 16 feet (5 m) in height.

To avoid being eaten by desert animals, **LITHOPS PLANTS** are **CLEVERLY DISGUISED** as rocks!

When the creepy, gross-smelling **HYDNORA AFRICANA FLOWER** opens up, it looks like a fleshy hand trying to grab you!

The **Welwitschia** or **"TWO-LEAF-CANNOT-DIE"** as it's known in Afrikaans, can live for up to **2,000 YEARS!**
